I am not 18 and I want a piercing

We take no pleasure in paperwork, but the law says we have to do it.

Piercing is a procedure during which the skin integrity is damaged, which is defined by § 93 Civic code, first paragraph. Therefore, we need your written consent to the procedure. For people under 18 years of age, we also need a written consent of their legal representative. This ensures that our tattoos bring only joy.

Sometimes, the presence of a legal representative is required. We reserve the right to refuse services to a minor, if his legal representative is not present.

As a legal representative of a minor:

- I consent with damaging the integrity of my son's/daughter's skin during the piercing process done in studio Hell.cz. I have been informed about the procedure and its possible risks and the proper aftercare.
- My son/daughter does not suffer any health conditions which could negatively impact the application or healing process (abnormal blood pressure, epilepsy, diabetes, immune disorders, blood clotting disorders, allergies, infectious diseases, jaundice, HIV, or any other). If any condition like that exists, or my son/daughter is taking any medication, I will inform the piercer before the procedure. I acknowledge that not doing so could result in serious health complications.
- I will oversee my son/daughter following the aftercare instructions provided (or found at www.hell.cz), and if despite my careful following of those instructions, any health complications will arise, I will immediately contact studio Hell.cz by phone.
- I agree to any possible genetical waste material being disposed in accordance to valid hygiene norms.
- I agree with handling of the following personal data:

As a minor:

- With my signature, I consent with damaging the integrity of my skin during the piercing process done in studio Hell.cz. I have been informed about the procedure and its possible health risks and the proper aftercare. I agree with handling of my following personal data:
